Who is a Campus Ambassador? How does it benefit?

A program that brings out your Leadership skills and hones your talent towards innovation and taking up exclusive ownership being a part of Ninjas family.

- Interaction with experts, direct career guidance from our mentors [*We mean it!*]
- Exclusive inside updates about our latest courses
- Family of 200 active students across India
- Opportunity to Lead Hackathons/Events and Coding Competitions
- And Lots of Specially Created Developer Swags

Campus Ninjas is a National Program focused on creating a curated circle of leaders. We are looking for people who can contribute to a larger picture of getting awesome developers together, helping those who want to learn programming.

The students work directly with us as a part of the team and get a direct hang of the startup culture at Coding Ninjas.

Eligibility

Students who can take up the ownership and are willing to get exposed to management and leadership.

What you get?

- A personalised Linkedin recommendation from our team to highlight your role and work experience with us
- Swags, exclusive ones, just as you join us (yes, there's an interview process)
- There's some yearly achievements which can lead you to an iPhone or even a MacBook Air too!
- Additional incentives for people who take initiatives to spread the community and word
- Opportunity to join us as a student mentor if you're good at programming
- And yes, you're family, so our course mentors are there for you, always
- If you're a blogger, we'll be super happy to feature you on our blog
- Cash incentives included. 😉

What you do?

- Assist Coding Ninjas Team to organise Talks/Sessions (Pre-placement sessions, Topic based workshops etc.)
  - Permission & Space from authorities for the workshop.
  - Spread the word in your campus!
- Organize hackathons: Internal coding events/series of small coding competitions in association with CN on our online platform.
- Our courses have the highest completion rates and success ratio. We expect you to spread the word amongst your college mates. (Every referral comes with a cash reward + Points leading to cool goodies).
- Helping the team to promote Events, Courses, Offers & Latest updates
  - Sharing e-posters on social media
  - Facebook marketing: college page, fest page, college groups, class groups etc.
  - WhatsApp: Placement groups, Class groups, fest groups o Instagram posts
- Introduce **CodeZen** as programming platform in campus and Coding Chapters.
- Connect us with other societies & Event organisers for all events happening at your college.
